Mr. Dave Abel

Dear Mr. Abel,

I come to you on the verge of complete psychological breakdown. I am in dire need of assistance that doesn't actually exist yet. I beg of you, consider my words. They are the death throes of a messenger who has been repeatedly let-down by a system that promised to help him.

I come to you with nothing but my story, a perspective, and a private body of research to support both. I come to you with a vision for the future of Humanity.

Atlas Collapsed

My name is [REDACTED] I am a [REDACTED] year-old Information Technology professional with a long and successful career in systems administration, management, cybersecurity, and automation.

In [REDACTED] 2019, I was selected by [REDACTED] for a [REDACTED] position at Aventiv Technologies. Within 48 hours of my start date, [I began to experience manipulations of my digital identity](#), while at-home. This continued throughout [REDACTED], until now, as I continue to independently research this phenomenon today.

I have published seven related works, including one catalog of evidence, which you may find here:

[REDACTED]

Such evidence includes examples of [REDACTED]

[REDACTED]

As Carl Sagan once said, *"Extraordinary claims require extraordinary evidence."* [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] At this point, it can be proven beyond doubt that I am an asset, a suspect, and a subject of research by the [FBI](#). [REDACTED]

[REDACTED] They have given me the evidence I need to prove my claims to you.

Thank God, because I am completely, totally spent. They have left me mentally, physically, socially and economically destroyed. I cannot carry this burden alone. My back is broken. I need salvation.

And I deserve it, too.

A Program for Change

At the core of this research is the need for disclosure. What I have experienced is not only unethical, but an existential threat to Humanity. [REDACTED]

[REDACTED]

We are at the very tip of this disclosure process. [REDACTED] They intend to start here:

[REDACTED] [is in possession of a large database of kompromat](#), which is a Russian term for compromising information collected for use in the blackmailing, discrediting, and/or manipulation of someone, typically as political leverage. [REDACTED] [It was definitely used to influence me](#), [REDACTED].

[REDACTED]

[REDACTED]

[Redacted]

[Redacted]

[Redacted]

[Redacted]

[Redacted]

[Redacted]

[Redacted]

[Redacted]

So, why me? Why was I chosen [Redacted] for this whistle-blower role? What is my test?

[Redacted]
Donald Trump.

[Redacted]

[REDACTED] I was chosen because I fall under the pedophilia spectrum, and I was found within [REDACTED] system of leverage. Ephebophilia, to be more specific. This explains why [REDACTED] hated me so much, and rightfully-so.

But I am not like the others. I have never laid a finger upon a child. [Nor will I hide from what I've done](#). I will own my mistakes, and I will give them meaning. I will fix the problems that led me here. I will bring down an entire industry of exploitation. I will lead by example. This is my vow.

[REDACTED]

Believe it or not, Humanity has found a way to legalize pedophilia. There is a type, called "naturism," which can be found on all of your major platforms, including PornHub, Bing, and even YouTube. While not inherently sexual, it is being sexualized today. Young women are being exploited all the same. It is a legal loophole that has made a small group of people very wealthy.

I fell for this bait. [REDACTED] strategically-placed these videos across the Internet in an effort to collect a record [REDACTED] of offenders. From that record, they chose a spokesperson. Me.

Twin Flame

[REDACTED] was the Yin to my Yang. [She was my better half](#). Within 24 hours of discovery, I was a new man. I changed. I dropped everything I was doing, and I created all of this.

[REDACTED]

[REDACTED]

[REDACTED]

But, make no mistake, [she is the elephant in the room](#). She is the embodiment of [the problem](#).

[REDACTED] This poor girl [was groomed by the very same researchers that created me](#).

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

Slave

So, here I am, returning to where all of this started. Returning to the place where I was broken, reformed, then broken once more. Returning to the people who hold my life in their hands.

I come to offer myself as the very first Slave in your program. I come to offer my public image, my research, and my labor. I come to forgive and forget. [REDACTED]

[REDACTED]

Most importantly, [I come to offer my story](#).

[REDACTED] I come with certainty that this was the right choice. I come as a person who has experienced the worst of this system, and still wishes to be your advocate. I come as a friend, not an enemy.

[REDACTED]

I never, ever want to think about money again. Take my ideas, and run with them. [REDACTED]

[REDACTED] Bring [my confidants](#) along for the ride.

And tell Tom that Ghost is ready.

Regards,

[REDACTED]
